

Manufacturer: ALPHA POMPE SPA  
Address: via Molino Emili 16 - 25030 - Maclodio (BS - ITALY)

### DECLARATION OF CONFORMITY

The manufacturer ALPHA POMPE SPA declares that the entire range of its products:

**Pneumatic Rack & Pinion actuators in aluminium alloy**  
**Series AP, APY, APX**

is engineered and manufactured following CE directive:

## ATEX - 94/9/CEE

According to what the aluminium nameplate shows,  
the products correspond to the safety requirements as per following classification:

- Low Temperature      -40 +80°C (-40 +176°F)            II 2GD c Tmax = 95°C
- Standard                -20 +80°C (-4 +176°F)            II 2GD c Tmax = 95°C
- High Temperature      -20 +150°C (-4 +302°F)            II 2GD c Tmax = 165°C

**According to:**            EN 1127-1 e EN 13463-1  
Machine Directive - 98\37\CEE

**Other Standards:**    ISO 5211, DIN 3337, VDI\VDE-3845  
UNI EN ISO 9001:2000

**Technical file:**        FT\_ATEX\_01\_2004 and enclosures

**Deposit:**                Notified Office No. 0123, TÜV PRODUCT SERVICE GMBH.

**Certificate:**            No. EX9 04 04 52727 001.

Actuators are not considered to be "recipients under pressure" or "safety accessories" as stated in CE Directive: PED - 97\23\CEE.

To respect the a.m. Directive, and also as general safety norm, switching-on the machine where the device will be assembled is forbidden, before the machine is declared conform to such Directive.

Maclodio, 07\01\2004

The President

(Bugatti Amedeo)
