

## DIRECT-MOUNT 3-PC BALL VALVE

### Model: Series AC-35 (Formerly AC-305MF)

SIL3 Capable

#### • Features

- Square stem and twin ISO 5211 mounting pad allow easy automation
- Self-adjusting stem packing with Belleville washers minimizes need to re-tighten packing
- Chevron stem packing reduces wear and increases sealing performance
- 3-piece swing-out design enables in-line maintenance
- Blowout-proof stem
- Anti-static device(optional)
- V-port options available in 10°, 30°, 60°, 90° for control applications
- Certified according to PED 2014/68/EU
- EN 10204-3.1 Material Certificate is complementary

#### • Body Material

- ASTM CF8M, CF8, WCB
- DIN 1.4408, 1.4308, 1.0619

#### • Size Range

- 1/4" - 4" (DN8~DN100)

#### • Pressure Rating

- 1000PSI (PN63)

#### • End Connection

- Threaded
- Buttweld, long buttweld
- Socketweld
- Combination of end connections also available

#### • Temperature Range

- 4°F to 350°F (-20°C to 180°C) with PTFE seats
- 4°F to 400°F (-20°C to 200°C) with MG1241 seats

#### • Inspection Standard

- API 598, ISO 5208 or EN 12266-1

#### Materials List:

NO.	PART NAME	MATERIAL
1	BODY	1.4408 / 1.0619
2	CAP	1.4408 / 1.0619
3	BALL	1.4408 / 1.4308
4	BALL SEAT	PTFE

3"	80	901	779.4
4"	100	1588	1373.6

The upper table represents the Flow Coefficients (Cv) and Flow Factor (Kv) for DIE ERSTE Series AC-305 ball valves. This number represents the volume of water at 60°F that will flow in US gallon per minute through a valve with a 1 lb/in<sup>2</sup> pressure drop across in the full open position. For Kv, it is the flow of water with temperature from 5°C - 30°C in cubic meters per hour (m<sup>3</sup>/h) with a pressure drop of 1 bar.

$$Cv = F \sqrt{\frac{SG}{\Delta P}}$$

The Cv value is dependent on flow rate, pressure drop, specific gravity. The larger the Cv value, the easier the fluid will flow within the valve. However, Cv value is easily affected by various factors, such as fluid type, fluid viscosity, saturated steam pressure.

# DIRECT-MOUNT 3-PC BALL VALVE EXTENDED BUTT WELD END

## Model: Series AC-35-AS (Formerly AC-305MF-AS)

SIL3 Capable

### • Features

- Square stem and twin ISO 5211 mounting pad allow easy automation
- Self-adjusting stem packing with Belleville washers minimizes need to re-tighten packing
- Chevron stem packing reduces wear and increases sealing performance
- 3-piece swing-out design enables in-line maintenance
- Long buttweld end for easy welding
- Blowout-proof stem
- Anti-static device(optional)

### Model: Series AC-35-ASOR (Formerly ACOR-305MF-AS)

SIL3 Capable

#### • Features

- Square stem and twin ISO 5211 mounting pad allow easy automation
- Self-adjusting stem packing with Belleville washers minimizes need to re-tighten packing
- Chevron stem packing reduces wear and increases sealing performance
- 3-piece swing-out design enables in-line maintenance
- Long orbital weld end for ultra clean media
- Blowout-proof stem
- Anti-static device(optional)
- V-port options available in 10°, 30°, 60°, 90° for control applications
- Certified according to PED 2014/68/EU
